**Subject: Notice of Complete Application for NPDES Permit Number TN0081477
TWRA--White's Landing Day Use Area
Tiptonville, Lake County, Tennessee**

Dear Mr. McKinney:

The Division of Water Resources (the division) acknowledges the receipt of a permit application in our office on October 9, 2012. Rules of the Tennessee Department of Environment and Conservation, Division of Water Pollution Control, Chapter 1200-4-5-.05 (2): *Permit Application, Issuance*, state, in part:

"The applicant will be provided notice of completeness of the application and re-submitted material within 30 days of a determination that such material constitutes a complete application. This provision does not preclude the commissioner from later requesting additional material that subsequent to the notice of completeness is determined to be necessary for permit processing."

Our review of the individual NPDES permit application showed that you have submitted all the information required for the permit issuance. If any Aquatic Resource Alteration Permits (ARAP) are required for a site in areas proposed for active construction, the NPDES permit will not be processed until ARAP application(s) are submitted and deemed by TDEC to be complete.

If you have questions, please contact the division at your local Field Office at 1-888-891-TDEC; or, at this office, please contact me at (615) 532-0670 or by E-mail at Vojin.Janjic@tn.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read "Vojin Janjic", is located below the "Sincerely," text.

Vojin Janjic
